## VISIT WARSAW 04

*Warsaw is the biggest Polish agglomeration and the capital of Poland. There are over one and a half billion people living in the city and many more living in the adjacent areas who work, shop, or study in Warsaw. The city is the centre of Polish commercial activity. The biggest Polish companies are located in the city. For this reason, the capital attracts many young people who want to develop their careers there. Warsaw is also a buzzing academic centre, with many higher education facilities such as Warsaw University or Warsaw University of Technology. Many people dream of studying in Warsaw as it offers excellent conditions to study and fun.*

*Warsaw is located in the centre of Poland on the Mosovian Plain. It is located on the Vistula river, the longest Polish river, which divides the city in half. The city is one of the largest in the European Union. It consists of 11 quarters. The city was severely damaged during the World War II and a large part of historical architecture has been destroyed. Still there are many beautiful objects to be found in Warsaw, such as St. John's Cathedral, The Baths Park, or Wilanów Palace. The most easily recognized piece of Warsaw architecture is The Palace of Culture and Science, a socialist building constructed in 1955. It remains the highest building in the city, with the height of 231 metres and 42 floors. Due to its socialist history and specific looks the palace attracts a lot of resentment among some of the Polish citizens, but still many others recognize it as a piece of history and a trademark of Warsaw. Warsaw is the only Polish city with an underground system. The inhabitants may also use other forms of mass transport: trams, buses and Urban Rapid Railway. Warsaw is the seat of the most important state institutions of Poland: the parliament and the office of the president.*

## SIGHTSEEING 04

### **The Old Town and the Royal Castle (Stare Miasto i Zamek Królewski) -3h**

A UNESCO world heritage site, the Old Town charms with its colourful townhouses and the exceptional atmosphere of its narrow streets. When in the Old Town Market Square, you will meet a mermaid – the official symbol of the city. Don't forget to see the Barbican, stop by the bell on Kanonia Street, and walk along the old city walls. You should also visit the Royal Castle. Apart from the royal apartments, the old seat of Polish rulers also houses an art collection with paintings by Rembrandt and Bernardo Bellotto, also known as Canaletto. The Royal Castle, pl. Zamkowy 4, [www.zamek-krolewski.pl/en](http://www.zamek-krolewski.pl/en)

### **The Royal Route (Trakt Królewski) – 1,5h**

*The Royal Route connects three former residences of Polish rulers: The Royal Castle, Łazienki Królewskie and Wilanów Palace. It is the city's most famous route. Among the buildings lining the streets Krakowskie Przedmieście and Nowy Świat are the Presidential Palace, the Warsaw University campus, as well as beautiful churches and townhouses. The Route continues along the elegant and green Aleje Ujazdowskie, with embassies and ministries situated along the way. The historical route ends at Wilanów Palace*

The Route is not to be missed in the wintertime when it is illuminated with thousands of lights as part of the Great Illumination.

## SIGHTSEEING 04

### **Palace of Culture and Science (Pałac Kultury i Nauki) -1h**

The best-known and tallest building in the city, the Palace of Culture and Science, is a gift from the Soviet people to the Poles. Visible from almost every place in Warsaw, the palace is to Warsaw what the Eiffel Tower is to Paris the perfect landmark. Take the lift up to the 30th floor to see the city panorama from an altitude of 114 metres. The palace also houses a cinema, theatres, museums and trendy bistros, as well as the city's main tourist information point. plac Defilad 1, [www.pkin.pl/eng](http://www.pkin.pl/eng).

### **The Royal Łazienki Museum in Warsaw (Muzeum Łazienki Królewskie w Warszawie) – 2h**

The vast park surrounding the summer residence of the last Polish king, Stanisław August Poniatowski, is where Varsovians like to go for longer walks. The park is home to a winter garden, an amphitheatre, and even a Chinese garden. The biggest attraction, however, are the park's permanent residents: squirrels and peacocks. Another site worth seeing is the classicistic Palace on the Isle with its enchanting interior

design and gallery of paintings. Warsaw is the city of Fryderyk Chopin. Łazienki Park is home to a monument of the composer where during the summer every Sunday at 12.00 and 16.00 concerts with Chopin's music take place. In winter, near the monument, you can sit on Chopin's multimedia bench and listen to the artist's works that play from it. ul. Agrykoli 1, [lazienki-krolewskie.pl/en](http://lazienki-krolewskie.pl/en)

## SIGHTSEEING

04

## Museum of Warsaw (Muzeum Warszawy) – 1.5h

A place where you can admire collections connected with the history of Warsaw. The headquarters of the museum are located in eleven connected old town houses – eight on the Dekert side of the Old Town Square and three on ul. Nowomiejska. Rynek Starego Miasta 42  
[www.muzeumwarszawy.pl/en](http://www.muzeumwarszawy.pl/en)

## Museum of King Jan III's Palace at Wilanów (Muzeum Króla Jana III w Wilanowie) – 2,5h

Wilanów Palace is a true pearl of Baroque architecture in Warsaw. Learn about King Jan III Sobieski, who successfully fended off the Turks in the battle of Vienna and who lived in Wilanów with his beloved Marysieńka. Take a walk in the park and tour the palace interiors; see the portrait gallery and listen to stories of great romances.

The building and the park have both kept their original form, despite the partition, war, and occupation. Wilanów Palace is a must-see when visiting Warsaw. In the wintertime, the venue, illuminated with thousands of lamps, transforms into the Royal Garden of Lights. ul. Stanisława Kostki Potockiego 10/16
