Apdi partner presents the impact plan

We agreed on the structure of the practical guideline using the suggestion given by Inbie

Introduction

EnForSe Corners face to face Germany

Enforse Virtual Corners Poland

Reflection about the practical experience by each partner

Next steps

Italy, Spain, Germany and Turkey upload new evidence on dropbox dissemination

Germany will send us a report about practical activities in Enforce corners in presence

Last international Enforce Day will take place in Turkey 2 september

Conclusion

Dear colleagues,

I am writing below a small summary of the decisions we made during our meeting in the TPM in Poland.

1. First of all it is important to keep all the invoices of the exceptional costs made by force corners.
2. Second point remember to send us the photos of the in force Corner with the materials you have set up Flyers posters just like Luis did in Poland.

3. One of our project products is a practical guide of the Enforce Corners that Poland and Germany deal with. Luis has already prepared a short manual on the Enforce of which each of us will then translate into our own national language. Then Jurgen must add his own written part on systemic teaching and this will be translate in national languages too.

4. Practical guide will be formed by:
 - Introduction (Italy),
 - activities (Poland and Germany)

and a final part (each partner) in which there will be a short contribution from each partner: I will produce a Google form with a series of questions to be answered.

The guide will not be printed just to avoid impacting too much the environment, it will be a digital product that will then be published on the Enforce website and also on the different Facebook pages and the different websites of the individual partners. It is important because this product must be published by November 30th, so in the next few weeks I will send you all the information.

In the meantime, Poland will kindly upload on the Dropbox the manual of the Enforce days that he has already prepared so that it can be used by the partners to start translating it into the national languages.

Germany has to and insert their own part before the next TPM in Turkey.

Thank you for your amazing presence in the project.

N.
