

OBJECTIVE 1

Title: Improve the capacity of adult education providers to design innovative trainings and programs, foster the development of transnational and transdisciplinary curricula including online collaboration

Explanation

The aim of this project is to improve the capacity of adult education providers to be able to design innovative trainings and programs, to teach more effectively to adult people (including low skilled or low qualified adults).

The means for achieving this are to train the leaders of such organizations and adult educators, so that they can develop strategies aligned with the needs of the market, local context and adult learners.

Participating in this kind of training activities is also important to maintain continuing education that is designed for the retraining, reskilling and updating the knowledge of human power.

Blended mobility is a very important issue in our Institution, and it will offer additional opportunities that may be more suitable for some trainers and staff.

Measuring success

To evaluate if the objective of the mobilities has been reached we have divided the evaluation plan in few steps:

1. evaluation of the activities taken abroad
2. identification and documentation of the learning outcomes of participants
3. dissemination and use of the project's outcomes

As a part of the follow-up phase, each participant will provide feedback on concrete project outcomes to the other classmates or staff members.

To summarize, below can be found the evaluation methods to be implemented in our mobilities:

- Pre- and Post-Test
- Attendance
- Completion
- Certificates
- Surveys
- Questionnaires
- Testimonials
- Observations
- Photographs
- Clippings
